Our *Journey*

In 2021, with each succeeding year, QuickTech surpassing a new milestone. This year is more special as it is now a distributor's partner through Ingram Micro for Apple business.

In 2019, We launched our own online shopping platform, i.e. Quicktech.in.

In 2017, We were elevated to Cluster Management which allowed us to interact with Apple team.

In 2020, when COVID hit the world was really in a tough time but with the dedicated minds of our team, we were able to deliver all the couriers with maximum safety norms. We managed to ship and transport over 30,000+ couriers. It was a two - crore enterprise at that time.

In 2018, we marked our first step in e-commerce world through Amazon, Flipkart and Paytm Mall.

Mission & Vision

QUICKTECH'S MISSION IS TO

- Provide best products
- Achieve client satisfaction
- Create and cultivate long term customer relationship
- Telephonic support 24/7

With strategic planning and a commitment to provide our consumers with nothing but the best, we aim to present them with incredible offers, festival discounts, cash back programs, and tempting prices on all of our Apple Products.

“Upholding the best value to our clients by providing wide range of Apple products and professional services, and expertise on fastest and safest delivery at any corner of India. It wants to be a part of making India digitalised. It aims to become a robust platform that helps you realise the full potential of the most pioneering technology.”

VISION

Our vision is to deliver the greatest solutions and services to each individual while introducing them to Apple technology. Our main goal is to address the growing demand for cloud computing and online education. It aims to make the most up-to-date technology available to the widest possible audience by offering the widest range of goods.

Apple *Ecosystem*

What is Apple Ecosystem?

In the world of technology, "Ecosystem refers to community of objects". As we know Apple makes tones of devices like Macs, iPads, iPhones, Apple Watch, Apple TV and Airpods alongwith that they make software such as iOS, MacOS, iPadOS, WatchOS. You can enter into the ecosystem through any of the devices.

As Apple designs hardware and software together which makes possible to make all the components work together efficiently and beautifully. Using its proprietary technology such as airplay, shareplay, airdrop, continuity and iCloud etc keep your photos, documents, notes in sync.

Range of **Services**

Apple Care **Plus**

It provides Apple care+. When any Apple product is bought from our company, the customer can purchase Apple Care+ for extended protection against hardware or software damage. It also provides coverage for accidental damage. Repairs are done by Apple-trained experts using genuine Apple parts with Express Replacement Service. One can choose a plan that covers theft and loss for extra peace of mind. It offers priority software support, helps with Apple ID, and manages photos and iMessages.

*Rent & **Repairs***

Rent

Yes, QuickTech rents out MacBooks and iPads based on the needs of the customer. Apple devices are well-known for their long battery life, light weight but powerful design, and stylish appearance. We provide rental services to students, universities, designers and architects for visual presentation or film making, engineers, and corporations to make employee work easier and more efficient.

Repairs

QuickTech manages to repair your Apple device using iFixit Toolkit under the examination of our professionals. It also ensures the privacy of the customer's product. We use all genuine spare parts to repair your devices. Connect today with the QuickTech team for doorstep services.

Mobile Device **Management**

We also provide MDM (Mobile Device Management), which enables a company to empower their enterprise workflow with power of mobility, enhancing productivity without compromising on corporate security. QuickTech will let you manage your iPhones, iPads, iMacs and MacBooks. It is very important for organisations to keep an eye on the device being used on their network. There are challenges like security, compatibility, access and device manage and many more.

Quick & Safe **Delivery**

We strive to offer top notch customer service. We ensure quick and safe delivery of all our products. Once the order is placed, it will be delivered within 2 to 5 working days.

Your purchases comes with excellent 24x7 hours after sales support and service.
